Registration

Closing date for registrations: 16. January 2012

We hereby register as participants at the above-mentioned participation.

1. Participant

Company name: _____

Street: _____

Postcode & town: _____

Federal state: _____

VAT ID: _____

Contact partner: _____

Phone: _____

Fax: _____

E-Mail: _____

2. Required exhibition space and mandatory fees

All amounts indicated below are subject, where applicable, to statutory German and to statutory foreign taxation

a) Participation up to and including the 4th time

Square meter

• _____ m² hall space **incl. stand construction 265,00 €/m²**
(up to 100 m², minimum area 9 m²)

• _____ m² hall space **without stand construction 240,00 €/m²**
(up to 100 m², minimum area 50 m²)

• _____ m² outdoor space **without stand constr. 70,00 €/m²**
(up to 200 m², minimum area 20 m²)

b) Participation for the 5th time or more

• _____ m² hall space **incl. stand construction 310,00 €/m²**
(up to 100 m², minimum area 9 m²)

• _____ m² hall space **without stand construction 280,00 €/m²**
(up to 100 m², minimum area 50 m²)

• _____ m² outdoor space **without stand constr. 80,00 €/m²**
(up to 200 m², minimum area 20 m²)

Connections (do not depend on number of participations)

- An electricity connection (subject to charge) will be required
- A water connection (subject to charge) will be required

Fees (do not depend on number of participations)

- Registration mail fee

410,00 € / exhibition company

3. Exhibition goods (At information stand: product range)

We have noted and acknowledged the General and Special Conditions of Participation. We undertake only to exhibit products which are produced in the Federal Republic of Germany and/or under German licence. We have completed and enclosed the registration appendices. We agree to the computer-aided recording, storage, and forwarding of company details to third parties.

Payment of 20 % of the participation fees, based on the area size requested, as well as of mandatory fees, shall be due upon submission of registration in writing. Payment of this amount is due upon receipt of a corresponding invoice for payment in advance. The amount stated in the invoice for payment in advance must be paid into the account given in the invoice, naming the event in question. On admission, payment shall be due of the outstanding amount, immediately upon receipt of the final invoice. The amount stated in the invoice for final payment must be paid into the account given in the invoice, naming the event in question.

Special Conditions of Participation

(as supplement to the General Conditions of Participation of the Federal Republic of Germany at trade fairs and exhibitions abroad)

Please also note the General Conditions of Participation. A confirmation of the participation frequency and the signed registration form are preconditions for admission.

1. Closing date for registrations

16. January 2012

It is pointed out that, on principle, the participation can only be conducted, should the **minimum participation of 10 companies** be reached. Registrations submitted after the closing date for registrations will not be considered.

2. Minimum stand space

Square meter

• Hall space including stand construction	9 m ²
• Hall space without stand construction	50 m ²
• Outdoor space without stand construction	20 m ²

3. Participation fee

The participation fees quoted are subject, where applicable, to statutory German value-added tax and to statutory foreign taxation (e.g. VAT, sales tax) levied on services provided to the exhibitor by the implementation company. The participation fees only cover a part of the total costs of services according to No. 5. Costs for sub-exhibitors will not be assumed.

3.1. Square meter

3.1.1. Participation fee for companies taking part in this official participation of the Federal Ministry of Economics and Technology **2012** up to and including the **4th time**:

- **EURO 265,00/m²** in the hall including stand construction up to 100 m²
More than 100 m² – cost of space rental and stand construction will be charged.
- **EURO 240,00/m²** in the hall without stand construction up to 100 m²
More than 100 m² – cost of space rental and elements of stand design bearing "made in Germany" will be charged.
- **EURO 70,00/m²** in the outdoor area without stand construction up to 200 m²
More than 200 m² – cost of space rental and elements of stand design bearing "made in Germany" will be charged.

3.1.2. Participation fee for companies taking part in this official participation of the Federal Ministry of Economics and Technology **2012** for the **5th time or more**:

- **EURO 310,00/m²** in the hall including stand construction up to 100 m²
More than 100 m² – cost of space rental and stand construction will be charged.
- **EURO 280,00/m²** in the hall without stand construction up to 100 m²
More than 100 m² – cost of space rental and elements of stand design bearing "made in Germany" will be charged.
- **EURO 80,00/m²** in the outdoor area without stand construction up to 200 m²
More than 200 m² – cost of space rental and elements of stand design bearing "made in Germany" will be charged.

4. Mandatory Fees

The organizer of the trade fair charges mandatory fee/s as follows:

- Registration mail fee **410,00 € / exhibition company**

Fees are subject, where applicable, to statutory German value-added tax and to statutory foreign taxation, (e.g. VAT, sales tax etc.), payable to the implementation company by the exhibitor.

5. Services

The payment of the participation fee includes the following services:

5.1. Company-specific services

All materials and facilities shall be at the disposal of the exhibitor, on a rental basis, only for the duration of the event, and may in no way be damaged or modified. Damaged or modified components and devices shall be repaired or replaced at the expense of the exhibitor.

5.1.1. Square meter

5.1.1.1. Hall space including stand construction

- Provision of stand space in the hall with the stand design bearing "made in Germany". Exhibitors may not obscure elements of the stand design.
- Uniform stand lettering
- Back and dividing walls
- Furnishings: **1 table, 4 chairs, 1 lockable sideboard, 1 info desk, 1 coat hanger, 1 waste paper basket**
- Uniform floor covering on the stand
- General stand lighting
- Electricity: Supply voltage: • **220V** •
- one socket (max. capacity 2 kW; without distribution/switching panel)
NB: Costs for additional electricity supply to the stand (for both light and power current) from the nearest distribution point will be charged to the exhibitor, and will be invoiced on the basis of the kW registered by the exhibitor. Additional light and power current usage have to be paid by the exhibitor.
- Entry into the German participation directory and – if arranged – into the website of the German participation (no liability shall be accepted for incorrect entries)

5.1.1.2. Hall space without stand construction

- An exhibitor's own stand construction is subject to the construction guidelines of the trade fair organiser and the federal government and must be approved. The exhibitor is obliged to submit his stand construction concept for inspection to the implementation company immediately after the closing date for registrations has passed.
- Provision of stand space in the hall for single storey stand constructions, including elements of stand design bearing "made in Germany" designated for stand areas without stand constructions. Two storey stand constructions are not permitted. Exhibitors may not obscure elements of the stand design.
- Uniform stand lettering
- Entry into the German participation directory and – if arranged – into the website of the German participation (no liability shall be accepted for incorrect entries).

5.1.1.3. Outdoor area (space only)

- An exhibitor's own stand construction is subject to the construction guidelines of the trade fair organiser and of the federal government and must be approved. The exhibitor is obliged to submit his stand construction concept for inspection to the implementation company immediately after the closing date for registrations has passed.
- Provision of stand space in the outdoor area, including elements of stand design bearing "made in Germany" designated for outdoor areas. Exhibitors may not obscure elements of stand design.
- Uniform stand lettering
- Stand marking on the corners of the stand
- Graveling of the outdoor area (as a rule); exception: suitable ground covering already available
- Electricity: Supply voltage: •
 - one socket (max. capacity 2 kW; without distribution/switching panel)NB: Costs for additional electricity supply to the stand (for both light and power current) from the nearest distribution point will be charged to the exhibitor, and will be invoiced on the basis of the kW registered by the exhibitor. Additional light and power current usage have to be paid by the exhibitor.
- Entry into the German participation directory and – if arranged – into the website of the German participation (no liability shall be accepted for incorrect entries).

5.2. General services

- Technical and organisational support of exhibitors by the realisation company during preparation and realisation of the participation
- Setting up of an information stand with copy service, telephone, and fax (costs shall be charged to the exhibitors)
- Uniform setting design of the German participation in the hall and/or in the outdoor area, in accordance with CI concept
- General lighting of the German participation
- Daily cleaning of the aisles within the German participation in the hall (cleaning of stand space, exhibits, and exhibit holders are the responsibility of the exhibitor)
- Security and stewarding service of the German participation if necessary (no guarding of stands)
- Waste disposal service
- Accompanying measures: **Website and Flyer**

5.3. Waiver

Waiving individual company specific or general services shall not constitute a claim for a reduction of the participation fee. Under no circumstances may uniform design elements be foregone.

6. Payment conditions

Payment of 20 % of the participation fees, based on the area size requested (according to No. 3), as well as of mandatory fees (according to No. 4), shall be due upon submission of registration in writing. Payment of this amount is due upon receipt of a corresponding invoice for payment in advance. The amount stated in the invoice for payment in advance must be paid into the account given in the invoice, naming the event in question. On admission, payment shall be due of the outstanding amount, immediately upon receipt of the final invoice. The amount stated in the invoice for final payment must be paid into the account given in the invoice, naming the event in question.

7. Forwarding agents

For organisational reasons, and in the interest of the exhibitors freight forwarding within the area occupied by the German participation will be transferred to up to two responsible forwarding agents. Exhibiting companies will be informed about this in good time by means of circulars.

8. Company data

Consent is granted to the computer-aided recording, storage, and forwarding of company details to third parties.

1. Organisers

The organisers of joint-company exhibitions within the scope of official participation of the Federal Republic of Germany at trade fairs and exhibitions abroad are the Federal Ministry of Economics and Technology (BMWi) in cooperation with the Association of the German Trade Fair Industry (AUMA), as well as the Federal Ministry for Food, Agriculture and Consumer Protection (BMELV) for the agricultural sector.

German companies have the possibility to participate within joint company presentations.

2. Implementation and exhibition management

With the technical and organisational implementation of official participations, the organisers of the participation commission specialised companies (implementation companies), which, within the scope of these "General Conditions of Participation" and the "Special Conditions of Participation", act on their own behalf.

3. Eligibility to register

Companies from the Federal Republic of Germany, as well as their foreign branches and agencies, are eligible to register to participate with exhibition goods at joint-company exhibitions, in accordance with No. 10.

Industry associations and the implementation company of the respective participation, travel agencies and shipping companies shall not be taken into consideration in counting a minimum number of participants, however they shall be permitted to participate.

4. Conclusion of an agreement

- 4.01** Registration to participate may take place only following the receipt, prior to the closing date, of a completed and signed registration form and of advance payment to implementation company. Registration shall be binding up to two weeks following the closing date for registration. No conditions and exceptions shall be permitted with the registration and these shall be regarded as not having been submitted.
- 4.02** The closing date for registrations of the respective event is stated in the enclosed "Special Conditions of Participation".
- 4.03** The receipt of registration shall be confirmed in writing by the implementation company. The registration and confirmation of receipt shall not constitute a claim for admission, or for a specific size or location of stand.
- 4.04** On condition that the company fulfils the necessary requirements, that a minimum number of participants has been reached and the number of registrations does not exceed the available exhibition space, the exhibitor shall receive written confirmation of participation (admission) from the implementation company after the closing date for registration has passed. On receipt of admission a contract between the exhibitor and the implementation company shall come into force. If the contents of the admission deviate from those of the registration a contract shall exist based on the contents of the admission, unless the exhibitor objects in writing within one week.
- 4.05** Companies which have not fulfilled their financial obligations from previous events may be denied a contract.
- 4.06** In case of non-participation the exhibitor shall be notified without delay, i.e. immediately the circumstances occur out of which non-participation arises (decisions by the organisers of German participation).
- 4.07** Allocation of exhibition space: following approval of space allocation the exhibitor shall receive a plan indicating the location and dimensions of the stand.
- 4.08** Following admission of the exhibitor, the implementation company may assign exhibition space to him, other than that planned for in the admission, if
- this is necessary for preserving the overall image when not all exhibition space offered by the implementation company has been rented, and
 - the exhibitor is provided with space which, with regard to location and size, is essentially the same.

Should the implementation company be forced to move or alter individual stands, entrances, exits, or aisles, subsequent to admission, through circumstances beyond its control, such as directives from public authorities or instructions from the trade fair or exhibition management, no resulting claims may be asserted. In the event of deviating measurements and a resulting marginal difference between specified and actual dimensions of the stand, this shall not constitute grounds for any claims on the part of the exhibitor. In particular, subject to consultation with the organisers of the participation, if the available exhibition space is reconfigured then the implementation company may reduce the amount of square metres booked. In this case the exhibitor shall be entitled to partial reimbursement of the price of participation. No further claims for damages may be made.

- 4.09** Stands shall be handed over to the exhibitor or his commissioned agent following agreement with the implementation company prior to the start of the event. Stands, which have not been taken over by the exhibitor or his commissioned agent in accordance with the agreement, may be used for another purpose, without the exhibitor being able to assert claims above and beyond the rights included in No. 8.

5. Sub-exhibitors

- 5.01** On principle, a stand area is only handed over as an entire entity, and only to one contractual partner. The latter is only authorised, following previous written consent by the implementation company, to include previously named sub-exhibiting companies on his stand. It is the exhibitor's responsibility to ensure a sub-exhibitor accepts the conditions of participation in writing.
- 5.02** The main exhibitor shall be liable for any fault of his sub-exhibitor as of own faults.

6. Terms of payment

Payment in advance is equal to 20 % of the participation fees, plus applicable fees, if requested. Following admission advance payment shall be deducted from the participation fees due. If an exhibitor shall not be admitted or participation shall not take place payment in advance will be reimbursed to the exhibitor. Following admission an exhibitor will receive an invoice for the participation fees, plus fees as specified in the Special Conditions of Participation. Payment of the amount invoiced is due immediately upon receipt of the invoice. The participation fees are laid down in the Special Conditions of Participation.

7. Setting-off, right of retention

The assignment of accounts receivable against the implementation company is excluded. The setting-off and right of retention are also excluded, providing that no uncontested or final and conclusively determined claim toward the implementation company exists.

8. Withdrawal / non-participation

- 8.01** The implementation company shall be entitled to withdraw from the contract,
- if bankruptcy proceedings are filed in respect of the exhibitor's assets. The exhibitor shall be obliged to immediately inform the implementation company of this.
 - if admission is based on the wrong conditions or on incorrect information
 - if the conditions upon which admission is based cease to exist at a later date
 - if, despite a reminder and an extended deadline being set, the payment date is not adhered to.
- The consequences are laid down in No. 8.02
- 8.02** After admission, it is no longer possible for the exhibitor to withdraw from the contract or to reduce the stand space. This shall also apply if, for example, the offices responsible do not wholly or in part comply with the import requests of the exhibitor, if the exhibition goods do not arrive on time (e.g. due to loss, transport/customs delays) or do not arrive at the event at all, or if entry visas for the exhibitor or his representatives are not obtained on time.
- Nevertheless, should the exhibitor forgo the stand space allocated to him, he must
- pay the entire participation fee, insofar as the space cannot be rented out by the implementation company to another exhibitor,
 - pay 40 % of the participation fee, a maximum, however, of EURO 500.-, insofar as the space can be rented out by the implementation company to another exhibitor, unless the exhibitor can furnish proof that no damage or considerably less damage has been caused.
- 8.03** The withdrawal of the exhibitor or the waiver of the allocated space shall only become effective upon receipt of the written declaration by the implementation company.

9. Stand equipping, design, and lettering

Equipping and individual design of the stands, insofar as they exceed the services of the participation organisers stated in the "Special Conditions of Participation", is the responsibility of each and every exhibitor. However, the building regulations valid at the event location, and the construction guidelines of the implementation company regarding the type of design apply. In additional lettering describing details of the country of origin, only the national name "Federal Republic of Germany" and/or the corresponding foreign-language version shall be allowed. The exhibitor shall be obliged to coordinate his design measures beforehand with the implementation company. A stand design, which does not meet the building regulations valid at the event location or the construction guidelines of the implementation company, can be removed or altered at the expense of the exhibitor.

10. Exhibition goods, direct sales, and stand personnel

10.01 Only goods produced in the Federal Republic of Germany or by branches of German companies abroad and/or under German licence may be exhibited. Foreign products required to complement German products, and which are in an appropriate size and value relationship to them, may be admitted after coming to agreement with the participation organisers. All exhibition goods are to be listed individually and with exact descriptions. Inflammable exhibition goods, or those with strong odours, or products whose presentation is associated with loud noise, may only be exhibited after prior agreement by the implementation company.

Goods subject to the Military Weapons Control Law (KWKG), as well as models of such or other representations may not be exhibited. For the exhibition of the civil versions of goods that require export authorisation in accordance with Foreign Trade Law, as well as models, or other representations thereof, no reference of any kind may be made to military usability. In justified exceptional cases, the Federal Ministry of Economics and Technology can grant an exception to the exhibition ban. Corresponding applications are to be submitted to the Ministry via the implementation companies. These must contain an exact description of the planned exhibition goods.

On principle, direct sales (individual sales to visitors) are not permitted. The exhibitor is obliged to ensure that specialist personnel are on his stand for the entire duration of the event.

10.02 If goods are displayed that are not allowed in accordance with 10.01, the implementation company can demand the immediate removal of these goods on behalf of the organiser at the expense of the exhibitor. If an exhibitor does not comply with the written demand to remove the goods, then a penalty for breach of contract to the amount of 5,000 EURO shall be payable.

10.03 The prosecution of commercial protective rights (such as trademark, design and patent rights) lies within the sphere of responsibility of the exhibitor. The organisers are not liable in particular for such damages resulting for exhibitors that have occurred due to violation by other exhibitors. In the case of any questions regarding the perpetuation of evidence, the implementation company shall assist within the reasonable bounds of possibilities available on site by contacting the exhibition management, making inspections or technical image recordings (photos if necessary) of the exhibit in question.

11. Transportation, display and dismantling of exhibition goods and stand furnishings

The transportation of exhibition goods up to the exhibition stand and back, the storage of empties, the use of lifting and transport equipment, the deployment of personnel for packing and unpacking, displaying exhibition goods, and the dismantling of the same, re-packing and other related activities are exclusively the responsibility of the exhibitor. Even after specifying the "Special Conditions of Participation", the organisers may compulsorily stipulate an on-site forwarder for the transporting freight of the official German participation within the exhibition grounds.

12. Customs guarantee declaration

In the event that a re-export guarantee declaration is handed over by an official agent of the Federal Republic of Germany abroad for the exhibitors' imported exhibition goods in place of a required surety, the exhibitor is immediately liable to the Government of the Federal Republic of Germany, should, following the event, exhibition goods not be exported, or not be exported on time, and/or not be exported in full.

13. Insurance and legal liability

13.01 The insurance of the exhibition goods against all transport risks and during the event, in particular against damage, theft, etc, is the responsibility of the exhibitor.

13.02 The exhibitor shall be liable for all damage caused to third parties through his exhibition participation, including damage caused to buildings at the exhibition centre and to its facilities.

13.03 The participation organisers and the implementation company assume no liability for damage to property unless intent or gross negligence can be proved against them, their legal representatives, or person or persons employed by them in performing an obligation. Furthermore, the participation organisers and the implementation company assume no liability for personal injury unless intent or gross negligence can be proved against them, their legal representatives, or person or persons employed by them in performing an obligation. The burden of proof is the responsibility of the exhibitor.

13.04 The participation organisers and the implementation company shall not be liable for any damage to the exhibits and theft thereof, nor even if in individual cases decoration was undertaken by the implementation company, unless it can be proved

that they, their legal representatives or vicarious agents were responsible for an act of negligence or intent. Furthermore, in agreeing to the conditions of participation the exhibitor expressly exempts the participation organisers and implementation company from any possible recourse claims by third parties.

14. Circulars

Following the allocation of stand spaces, the exhibitors shall be informed via circulars about preparation and implementation matters of the joint exhibition. Consequences arising from nonobservance of these circulars are the sole responsibility of the exhibitor.

15. Proviso

15.01 In all cases, regulations and directives of the responsible bodies of the Federal Republic of Germany and the host country, which deviate from these "Conditions of Participation", or which cause additional restrictions, always take priority. The participation organisers and the implementation company shall not be liable for damage and other detriments caused to the exhibitor resulting from these.

15.02 The participation organisers shall be entitled to postpone, shorten, lengthen, or cancel the participation, as well as to temporarily or finally close the participation in individual parts or as a whole, should unforeseeable events, such as acts of God, natural disasters, war, public disturbances, strikes, failures or hindrances to transport connections and/or communications, require. In the case of a postponement, shortening, lengthening, or closure, the exhibitor shall not be entitled to compensation for the costs incurred by him due to this. Should participation not be of interest to the exhibitor as the result of such a measure, and he therefore foregoes occupation of the stand space allocated to him, he shall be able to withdraw from the contract. Withdrawal must be declared in writing immediately following notice of the change. In this case, Article 8.02 applies for the exhibitor's obligations. In the case of a cancellation of the event or of the official participation of the respective Federal Ministry at the event, neither the event organisers nor the implementation company shall be held liable for damage or other detriments that arise from this for the exhibitor. At the request of the event organisers, the exhibitor shall be obliged to bear an appropriate share of the costs incurred through the preparation for the event. The costs to be paid by each exhibitor shall be determined following a hearing by the event organisers of the affected economic organisations and the implementation company.

16. Final provisions

16.01 Please refer to the "Special Conditions of Participation" with respect to the extent of services included in the participation fee.

16.02 If the exhibitor has commissioned the implementation company with orders for cost-incurring services beyond the scope of the "Special Conditions of Participation", the costs incurred shall be invoiced to him.

16.03 The mutual rights and obligations resulting from this contractual relationship shall be subject to the laws of the Federal Republic of Germany.

16.04 Place of jurisdiction is the registered office of the implementation company. Place of performance for financial obligations is the registered office of the implementation company, insofar as another agreement is not made by means of the prior consent of the participation organisers.

16.05 The contract and changes to the same must be made in writing and signed. Should one of the preceding conditions be null and void, the remaining conditions shall continue to apply. They shall be interpreted in such a way that the sense and purpose of the contract remain preserved.

16.06 Any claims lodged by exhibitors against implementation company must be made in writing. The period of limitation shall be 12 months and shall begin at the end of the month in which the final day of the event falls.

Product groups

► Heating technology

- ▷ Heat generators (gas/oil)
- ▷ Water heating/hot water storage
- ▷ Boiler accessories
- ▷ Firing units
- ▷ Exhaust systems and chimneys
- ▷ Tank systems
- ▷ Radiators and accessories
- ▷ Radiant panel heating
- ▷ Tanks and other fixtures
- ▷ Heating equipment and appliances for single storey heating/room heating
- ▷ Renewable energies
- ▷ Solar energy engineering

► Water supply for heating systems

- ▷ Water treatment, supply and sewage
- ▷ Fittings for heating and service water
- ▷ Fittings for drinking water supply systems
- ▷ Pumps for drinking water and industrial water
- ▷ Pumps for use in heating systems
- ▷ Draining pumps and draining systems
- ▷ Vessels for pumping systems
- ▷ Pump accessories

► Measuring, control and process technology for buildings

- ▷ Measuring and control technology for heating systems
- ▷ Process control technology for buildings
- ▷ Digital automation technology

► Pipelines, connection, installation technology and accessories

- ▷ Pipes, installation technology and accessories
- ▷ Connection technology

Product groups

► Sanitary Engineering, Bathroom, Wellness

- ▷ Baths
- ▷ Shower booths and shower equipment
- ▷ Bathroom furniture
- ▷ Accessories
- ▷ Ceramic wares
- ▷ Swimming pool technologies and equipment
- ▷ Sauna rooms and buildings

► Air-conditioning and ventilation systems – Aircotec

- ▷ Installations, equipment, components, and systems for centralized and decentralized ventilation technology
- ▷ Air-conditioning units
- ▷ Split, multi-split
- ▷ VRF systems, cooling, heating systems incorporated into the building fabric
- ▷ Fire and smoke protection
- ▷ Domestic controlled ventilation systems

► World of Installation Technology, Services

- ▷ Appliances and systems for surface mounting
- ▷ Pipes, fittings, fastenings
- ▷ Plumbing techniques, tools, and workshop equipment
- ▷ Office, IT, and communications technology

► Water treatment

- ▷ Water softening systems
- ▷ Water desalination
- ▷ Vacuum pumps for water treatment
- ▷ Measuring control and dosing systems
- ▷ Chemical, mechanical and biomechanical methods of water treatment

List of exhibits

1 Heating technology

1.1 Heat generators (gas/oil)

- 1.1.1 Special oil/gas boiler
- 1.1.2 Cast iron or steel boiler
- 1.1.3 Boiler/burner unit
- 1.1.4 Gas-powered water circulation heaters
- 1.1.5 Closed-circuit gas-powered water heater
- 1.1.6 Combined gas-powered water heater
- 1.1.7 Low-temperature oil/gas boiler
- 1.1.8 Oil/gas condensing boiler
- 1.1.9 Other special boilers
- 1.1.10 High-pressure steam boiler
- 1.1.11 Low-pressure steam boiler
- 1.1.12 Hot water boiler
- 1.1.13 High-speed steam generator
- 1.1.14 Liquid gas supply
- 1.1.15 Mobile heating stations/container heating stations
- 1.1.16 Gas-powered bright radiator
- 1.1.17 Gas-powered dark radiator

1.2 Combined heat/cold and power systems

- 1.2.1 Mikro-KWK
- 1.2.2. CHP unit

1.3 Water heating/hot water storage

- 1.3.1 Store fuelled directly
- 1.3.2 Store fuelled indirectly
- 1.3.3 Gas-powered flow heater
- 1.3.4 Electric flow heater
- 1.3.5 Directly heated gas water storage
- 1.3.6 Directly heated electric water storage
- 1.3.7 Indirectly heated consumption water heater
- 1.3.8 Stratified storage
- 1.3.9 Buffer storage
- 1.3.10 Expansion tank for drinking water heater
- 1.3.11 Combined storage
- 1.3.12 PCM device

1.4 Boiler accessories

- 1.4.1 Waste gas heat exchanger
- 1.4.2 Heat exchanger for steam
- 1.4.3 Heat exchanger for warm and hot water
- 1.4.4 Filling and refilling systems
- 1.4.5 Condensation systems
- 1.4.6 Other boiler equipment

1.5 Firing units

- 1.5.1 Special atomising burners
 - 1.5.1.1 Atomising burners (air/steam atomising burners)
 - 1.5.1.2 Pressure atomising burners
 - 1.5.1.3 Swirl atomising burners
 - 1.5.1.4 Bio oil burners
- 1.5.2 Oil burners and accessories
 - 1.5.2.1 Oil burner nozzles
 - 1.5.2.2 Safety pipes for oil supply systems
 - 1.5.2.3 Pipes for oil supply
 - 1.5.2.4 Catalysts
 - 1.5.2.5 Catalysts for oil burning systems
 - 1.5.2.6 Oil burner automation and safety systems
 - 1.5.2.7 Magnetic valves
 - 1.5.2.8 Oil filters
 - 1.5.2.9 Oil pumps and motors
 - 1.5.2.10 Oil pre-heaters
 - 1.5.2.11 Oil meters
 - 1.5.2.12 Devices for oil burner optimisation
 - 1.5.2.13 Other oil burner accessories
- 1.5.3 Central oil supply systems
- 1.5.4 Gas blast burners
- 1.5.5 Atmospheric gas burners
- 1.5.6 Gas burners and accessories
 - 1.5.6.1 Gas burner automation and safety systems
 - 1.5.6.2 Motors for gas burners
 - 1.5.6.3 Electronic devices for controlling the gas/air volume
 - 1.5.6.4 Devices for gas burner optimisation
 - 1.5.6.5 Other gas burner accessories
- 1.5.7 Dual-fuel/multi-fuel burners

1.6 Exhaust systems and chimneys

- 1.6.1 Chimney systems
- 1.6.2 Exhaust gas systems (ceramic, stainless steel, plastic)
- 1.6.3 Accessories for exhaust gas systems
- 1.6.4 Accessories for chimney systems

1.7 Tank systems

- 1.7.1 Fuel oil storage tanks
- 1.7.2 Buried tanks
 - 1.7.2.1 Battery tanks
 - 1.7.2.2 Spherical tanks
- 1.7.3 LPG storage tanks
- 1.7.4 Tank accessories (leak detectors, level gauges, limit transducers, etc.)
- 1.7.5 Oil tank covers and tank shafts
- 1.7.6 Tank cleaning systems
- 1.7.7 Tank cleaning agents
- 1.7.8 Distribution systems for oil/tank filling systems
- 1.7.9 Materials for protection of the tank inside
- 1.7.10 Fuel oil additives
- 1.7.11 Anti-corrosion
- 1.7.12 Receptacles for substances hazardous to the aquatic environment

1.8 Radiators and accessories

- 1.8.1 Sectional radiators/radiators made of steel, cast iron, aluminium, other materials
- 1.8.2 Flat radiators
- 1.8.3 Bathroom radiators/towel warmers
- 1.8.4 Convectors/baseboard radiators
- 1.8.5 Tube radiators
- 1.8.6 Ribbed radiators
- 1.8.7 Other radiators
- 1.8.8 Accessories, attachment material, panelling

1.9 Radiant panel heating

- 1.9.1 Warm water underfloor heating systems
- 1.9.2 Electric underfloor heating systems
- 1.9.3 Warm water wall heating systems
- 1.9.4 Electric wall heating systems
- 1.9.5 Ceiling heating systems
- 1.9.6 Radiant ceiling heating systems
- 1.9.7 Gas heating systems
- 1.9.8 Other radiant panel heating systems
- 1.9.9 Distributors for floor heating
- 1.9.10 Pipes for floor heating systems
- 1.9.11 Radiator fittings

- 1.10 Tanks and other fixtures**
 - 1.10.1 Expansion tanks
 - 1.10.2 Pressure containers
- 1.11 Heating equipment and appliances for single storey heating/room heating**
 - 1.11.1 Electric radiators
 - 1.11.2 Electric convectors
 - 1.11.3 Electric fan heaters
 - 1.11.4 Electric radiant heaters
 - 1.11.5 Stove heaters for oil and gas
 - 1.11.6 Stove heaters for solid fuels
 - 1.11.7 Other heating systems
- 1.12 Electric heating systems and accessories**
 - 1.12.1 Heating elements, inserts
 - 1.12.2 Heating mat
 - 1.12.3 Pipe heating
- 1.13 Anti-corrosion**
 - 1.13.1 Cathodic corrosion protection
 - 1.13.2 Chemical corrosion protection
 - 1.13.3 Chemical additives
 - 1.13.4 Decalcification systems
 - 1.13.5 Boiler cleansing and decalcification compounds
 - 1.13.6 Heating water treatment facility

2 Systems using renewable energies

- 2.1 Solar thermal systems for the production of hot water, additional space heating and cooling**
 - 2.1.1 Flat solar collectors
 - 2.1.2 Vacuum tube solar collectors
 - 2.1.3 High-temperature collectors
 - 2.1.4 Air collectors
 - 2.1.5 Solar absorber
 - 2.1.6 Solar tanks
 - 2.1.7 Ready to install pipework systems
 - 2.1.8 Solar stations, control units
 - 2.1.9 Accessories
- 2.2 Photovoltaic systems and accessories**
- 2.3 Heat pumps**
 - 2.3.1 Air/air heat pumps
 - 2.3.2 Exhaust air heat pumps
 - 2.3.3 Air/water heat pumps
 - 2.3.4 Water/water heat pumps
 - 2.3.5 Brine/water heat pumps
 - 2.3.6 Gas absorption heat pumps
 - 2.3.7 Heat exchangers (capacitor/evaporator)
 - 2.3.8 Refrigeration compressors
 - 2.3.9 Coolant
 - 2.3.10 Heat pumps for drinking water
 - 2.3.11 Heat pump direct evaporation systems
 - 2.3.12 Geothermal energy probes
 - 2.3.13 Absorbing systems
 - 2.3.14 Brine distributors
 - 2.3.15 Distribution shafts
 - 2.3.16 Accessories for heat pump systems

- 2.4 Systems using biomass**
 - 2.4.1 Pellet heating systems
 - 2.4.2 Solid wood heating systems
 - 2.4.3 Shredded wood heating systems
 - 2.4.4 Pellet discharge systems (worms, suction systems)
 - 2.4.5 Accessories for pellet heating systems
 - 2.4.6 Accessories for solid wood heating systems
 - 2.4.7 Accessories for shredded wood heating systems
- 2.5 Fuels and logistics**
 - 2.5.1 LPG, biogas
 - 2.5.2 Bio fuel oil
 - 2.5.3 Pellets, production, transport and storage
 - 2.5.4 Solid wood, production, transport and storage
 - 2.5.5 Storage containers
- 2.6 Other renewable energy systems**
 - 2.6.1 Fuel cell technology
 - 2.6.2 Wind energy technology and accessories
- 2.7 Promotion programs, software and information material**

3 Water treatment, water supply, Sewage

- 3.1. Water treatment
- 3.2. Water supply
- 3.2. Waste water treatment/-disposal

4 Pumps

- 4.1 Wastewater pumps
- 4.2 Booster pumps
- 4.3 Heating circulation pumps
- 4.4 Service water circulation pumps
- 4.5 Circulation pumps
- 4.6 Boiler charge pumps
- 4.7 Oil pumps
- 4.8 Boiler feed water pumps
- 4.9 Oil burner pumps
- 4.10 Circulation pumps
- 4.11 Other pumps

5 Fittings and fixtures

5.1 Fittings and fixtures for heating and service water as well as other application fields

- 5.1.1 Gate valve
- 5.1.2 Butterfly valves
- 5.1.3 Shutoff valves
- 5.1.4 Shutoff taps
- 5.1.5 Non-return valves
- 5.1.6 Gravity brakes
- 5.1.7 Boiler feed and discharge taps
- 5.1.8 Quick-action ventilation valves, air separators
- 5.1.9 Dirt pans
- 5.1.10 Steam traps
- 5.1.11 Separators for solid, liquid and gaseous substances
- 5.1.12 Test equipment
- 5.1.13 Monitoring equipment, optical and acoustical
- 5.1.14 Flow controllers
- 5.1.15 Water level indicators
- 5.1.16 Pressure governors, differential pressure control equipment
- 5.1.17 Temperature controls
- 5.1.18 Level controllers
- 5.1.19 Mixing valves for heating installations
- 5.1.20 Straight-way, three and four-way valves and/or mixers
- 5.1.21 Service water mixers
- 5.1.22 Strand control valves
- 5.1.23 Overflow valves
- 5.1.24 Overfill protectors
- 5.1.25 Oil-fired furnace fittings
- 5.1.26 Fittings for fuel oil containers
- 5.1.27 Gas fittings
- 5.1.28 Liquid gas fittings
- 5.1.29 Radiator thermostat valves
- 5.1.30 Actuators for radiator thermostats
- 5.1.31 Zone valves
- 5.1.32 Radiator ventilation
- 5.1.33 Safety valves for service water makers
- 5.1.34 Safety valves for central heating systems
- 5.1.35 District heating building stations
- 5.1.36 Fire extinguishing and fire protection fittings
- 5.1.37 Cooling technology fittings and fixtures
- 5.1.38 Compensation fittings for thermal longitudinal expansion
- 5.1.39 Distributors for heating and service water
- 5.1.40 Insulation material for fittings

5.2 Fixtures and fittings for drinking water installations

- 5.2.1 Shutoff valves
- 5.2.2 Gate valve
- 5.2.3 Appliance connection fittings
- 5.2.4 Plug valves
- 5.2.5 Non-return valves
- 5.2.6 Pipe separators and interrupters, pipe ventilators
- 5.2.7 System separators
- 5.2.8 Pressure reducer
- 5.2.9 Flushing tank fittings
- 5.2.10 Shut-off and outlet fittings
- 5.2.11 Drain and overflow fittings
- 5.2.12 Distributors for cold water, warm water and circulation
- 5.2.13 Insulation material for fittings

6 Measuring, control and process technology for buildings

6.1 Process measuring and control equipment for sanitary and heating technology

- 6.1.1 Central controls
- 6.1.2 Control devices for individual room temperature adjustment
- 6.1.3 Sensors (e.g. for flow, outside and room temperature)
- 6.1.4 Thermostats
- 6.1.5 Timers, time-controlled thermostats
- 6.1.6 Actuators for mixers, valves, butterfly valves
- 6.1.7 Switching cabinets
- 6.1.8 Oil-burning automats
- 6.1.9 Gas-burning automats
- 6.1.10 Calorimeters
- 6.1.11 Heating cost distributors
- 6.1.12 Water meters for cold and warm water
- 6.1.13 Exhaust gas analysis devices
- 6.1.14 Leakage measuring and warning devices
- 6.1.15 Other process measuring and control equipment
- 6.1.16 Operating hours counter
- 6.1.17 Presence detectors

6.4 Digital automation systems/measuring devices and equipment

7 Pipelines, connection and installation equipment, accessories

7.1 Pipes, fittings and accessories

- 7.1.1 Pipes and fittings made of stainless steel
 - 7.1.2 Pipes and fittings made of steel
 - 7.1.3 Pipes and fittings made of copper
 - 7.1.4 Pipes and fittings made of aluminium
 - 7.1.5 Pipes and fittings made of polymers
 - 7.1.6 Pipes and fittings made of fiber cement
 - 7.1.7 Pipes and fittings made of cast iron
 - 7.1.8 Pipes and fittings made of brass
 - 7.1.9 Fittings made of malleable iron
 - 7.1.10 District heating pipes and accessories
 - 7.1.11 Drain pipes and moulds made of stainless steel
 - 7.1.12 Drain pipes and moulds made of steel
 - 7.1.13 Drain pipes and moulds made of fibre cement
 - 7.1.14 Drain pipes and moulds made of cast iron
 - 7.1.15 Drain pipes and moulds made of polymers
 - 7.1.16 Drain pipes and moulds made of glass
 - 7.1.17 Sound protection for pipelines
 - 7.1.18 Seals for pipes and moulds
 - 7.1.19 Lighting protection accessories
 - 7.1.20 Insulation material for pipes and containers
 - 7.1.21 Expansion compensators for pipelines
 - 8.1.22 Tubular feedthroughs
 - 7.1.23 Fire protection for pipelines
- 7.2 Connection systems**
- 7.2.1 Thread connection
 - 7.2.2 Gluing
 - 7.2.3 Soldering
 - 7.2.4 Welding
 - 7.2.5 Pressing
 - 7.2.6 Plugging
 - 7.2.7 Clamps
 - 7.2.8 Pipe couplings

8 Various

8.1 Trade literature

8.2 Organisations, associations, institutions
