**SHK Moscow 2005 – International Trade fair for Sanitation, Heating, Air Conditioning, Building Automation:  
Special exhibition “Intelligent Building”:  
Technologies, Concepts, Solutions!**

The ninth SHK Moscow is being staged at the exhibition grounds SAO Expocentr in Krasnaja Presnja, Moscow, from 23 to 26 May 2005. On an exhibition area of approximately 8,000 m<sup>2</sup>, around 300 exhibitors from 20 countries will present their innovations in the areas of heating technology, piping, fittings, refrigeration, air conditioning, sanitation or environmental technology.

In addition, this year a special exhibition, entitled “Intelligent Building”, will be held for the first time. Technologies, concepts and solutions – those are the topics covered at this event, which will take place in a specially designed area in hall 7.

The special exhibition is organised by Messe Düsseldorf in cooperation with its long-standing partner ABOK (Russian Association of Engineers for Heating, Ventilation, Air-Conditioning, Heat Supply and Building Thermal Physics).

Topics of the special exhibition include

- Intelligent building concept in commercial buildings (office buildings, shopping malls, stadiums, hotels, airports)
- IB concept in residential buildings (multi-story housing estates, smaller houses)
- IB technology in modern high-rises
- Economic aspects of IB concepts and their implementation

With this special exhibition, the organisers offer exhibiting companies an excellent platform for the holistic presentation of their concepts. Exhibitors such as Honeywell, Siemens BT, York International, ICS, CROC, GUTA Telecom Clipsal, VAK - Engineering have recognised this opportunity and sent in their registrations already. Are you interested? You may still register with Messe Düsseldorf by phoning 0049 211/4560 7707.

Further information on the trade fair is available at [www.shk-online.com](http://www.shk-online.com).
